

ENVIRONMENTAL POLICY

Andigestion Ltd specialises in the generation of renewable energy and supply of digestate nutrients from processing organic waste.

Therefore the mitigation of environmental impacts and sustainable environmental management is at the very foundation of what we do. We are actively developing the industry through continual improvement and investment in the efficiency of processes and technologies. We have a strong focus on identifying the risks posed to the environment through our operations and minimising these using the best available techniques and through the implementation of an Environmental; Management System compliant with ISO 14001 and complying with the following actions:

- Assess and regularly re-assess the environmental effects of the Organisation's activities
- Assess and regular re-assess the Organisations environmental objectives and targets
- Training of employees in environmental issues
- Minimise the production of waste
- Minimise energy wastage
- Promote the use of recyclable, sustainable and renewable materials
- Manage the disposal of waste
- Reduce and/or limit the production of pollutants to water, land and air
- Minimise the risk to the general public and employees from operations and activities undertaken by the Organisation

This policy is communicated to all employees, suppliers and sub-contractors and is made available to the public.

In drafting and reviewing the Environmental Policy all personnel involved ensure that it:

- Is appropriate to the nature, scale and environmental impacts of its activities
- Includes a commitment to continual improvement and the prevention of pollution
- Includes a commitment to comply with the relevant environmental legislation and regulations, and with the other requirements to which the Organisation subscribe
- Provides the framework for setting and reviewing environmental objectives and targets
- Is documented, implemented and maintained and communicated to all employees
- Is available to the public on request along with its noted significant aspects and impacts.

Care for the environment **shall** be applied to every aspect of our activity and **shall** be the responsibility of everyone, in every activity, throughout Andigestion Ltd.

Company management will ensure that this Environmental Policy is implemented and the Policy will be reviewed annually.

QUALITY POLICY

Andigestion Ltd specialises in the generation of renewable energy and supply of digestate nutrients from processing organic waste.

The company's quality management system concentrates upon error prevention, by investigating processes, identifying errors and opportunities for errors and implementing corrective and preventative action to correct and avoid such occurrences.

The company defines quality as the conformance of services to established and documented requirements derived from Client needs, employee expertise and experience. Systems are open to constant examination and review by all company personnel and approved third parties enabling observations to be made and incorporated, which provide for continuous improvement. The fundamental components of our Quality Management System are prescribed in the policy statements below:

- Committed to comply with industry standards.
- Committed to implementing a framework to ensure Quality objectives are met and reviewed
- Monitoring quality through a program of laboratory testing.
- Communication and training of staff, contractors, suppliers and customers to enhance awareness and commitment to the Quality Management System.
- Suppliers to the company will be actively encouraged to improve the quality and reliability of their services.

The company is proud of its good reputation for responsible practices and dedicated customer care, which are a result of the company's ethical culture, skilled committed staff, and quality control over its services. It is the company's policy to seek to operate to these standards continuously and to implement and operate fully the BS EN ISO 9001 quality assurance standard through registration and annual review.

The company complies with all legislation relevant to its particular industry sector together with the Health and Safety at Work Act 1974.

It is the company's belief that, in applying these Standards, policies and procedures it will be able to operate to the requirements of its customers and industry requirements accordingly.

Company management will ensure that this Quality Policy is implemented and the Policy will be reviewed annually.
